Work Experience

Michael Kors

Leesburg, VA

Sales Associate

June 2024–August 2024

- Worked as a sales associate team member, engaging in conversations with customers to execute all sales transactions. Significant focus on details for marketing and displaying all products, while working collaboratively with my team.

PacSun

Leesburg, VA

Customer Service Associate

June 2023–August 2023

- Provided customer service by operating the register, assisting customers with product inquiries, organizing merchandise displays, and managing fitting room operations to ensure a smooth and efficient shopping experience, while increasing sales revenue.

Relevant Coursework

-
- **CS345** - Software Engineering
 - **CS240** - Data Structures and Algorithms
 - **CS261** - Computer Systems
 - **CS343** - Application Development

Projects

Retro Study Timer

May 2024–September 2024

- Created a cat-themed Pomodoro timer to practice making a project in a software engineering and scrum environment to learn basic HTML, JavaScript, and CSS.
- Led sprint planning and post-sprint retrospectives.

Calculator App

March 2024–May 2024

- Worked collaboratively with a team to develop a calculator application that could perform basic calculator actions, read back the history of calculations, support multiple languages, as well as perform several other functions.
- Utilized technologies including Java, Java Swing, basic HTML, Git, and Eclipse.

Activities

-
- **JMU Varsity Valorant Player** September 2022–Present
 - **Competitive Programming Club** September 2024–Present
